

KraneShares Electric Vehicles & Future Mobility ESG Screened UCITS ETF

KraneShares Electric Vehicles & Future Mobility ESG Screened UCITS ETF is a sub fund of KraneShares ICAV (the "ICAV"). The ICAV is authorised as a UCITS in Ireland and regulated by the Central Bank of Ireland.

Investors should read the Prospectus, Supplement and UK KIID and/or PRIIP KID prior to investing.

Investment Strategy:

KARS is an index-tracking, passively managed, UCITS ETF that is benchmarked to the Bloomberg Electric Vehicles ESG Screened Index. The fund provides exposure to companies that are engaged in the production of electric vehicles, their components, or other initiatives that may change the future of mobility. This includes electric vehicles, autonomous driving, lithium and/or copper production, lithium-ion/lead acid battery production, hydrogen fuel cell manufacturing and/or electric infrastructure businesses. Companies involved in ESG controversies and controversial business activities are excluded.

KARS Features:

- Access to global companies that operate in all areas of new transportation methods, passenger and freight, including electric vehicles, autonomous vehicles and shared mobility.
- Exposure to companies that lead the development of vehicle connectivity like Internet of Vehicles (IoV) and Intelligent mobility.
- Exposure to the growth brought on by increased demand for lithium-ion battery and non-ferrous metals like lithium due to electric vehicle adoption.
- Exposure to equities listed in Mainland China, currently the world's largest electric vehicle market.

Future Mobility Sector Highlights:

- 57% of new car sales and over 30% of the global car fleet are projected to be electric by 2040.¹
- The global electric vehicle (EV) market value reached \$436 billion in 2022⁴ and is projected to reach \$1.4 trillion by 2027.³
- The global electric vehicle market is projected to command \$2.7 trillion of total investment before 2040.²

Investing involves risk, including possible loss of principal. There can be no assurance that a Fund will achieve its stated objectives. The Funds are subject to political, social or economic instability within China which may cause decline in value. Fluctuations in currency of foreign countries may have an adverse effect to domestic currency values. Emerging markets involve heightened risk related to the same factors as well as increase volatility and lower trading volume.

KARS seeks to promote a combination of environmental and social characteristics, within the meaning of Article 8. Investors should refer to the "Sustainable Finance" section of the Prospectus for further details on how the Investment Manager addresses Sustainability Risk and ESG Integration for KARS. In line with the Index methodology, KARS promotes environmental characteristics but does not commit to making environmentally sustainable investments as defined in the Taxonomy Regulation.

Investors should note that, relative to the expectations of the Autorité des Marchés Financiers, KraneShares Electric Vehicles & Future Mobility ESG Screened UCITS ETF presents disproportionate communication on the consideration of non-financial criteria in its investment policy.
